

Technical Services

People, process
and delivery

DPS Group is a global consulting, engineering and construction management company, serving high-tech industries around the world.

Our Values

The DPS culture is based on actions, not promises. We don't rest on past successes.

Dynamic

We have a passion and an underlying entrepreneurial spirit that drives us to seek out the best answers to the challenges we face.

Honest

We look at the relationship, not just the bottom line.

Adaptable

We are innately a flexible and responsive organization. We use this strength to seize new possibilities and help clients fulfil their potential.

Human

We are a 'Work With' organization of people who are keen to share their expertise through a positive, 'always can-do' attitude.

The Technical Services Operation (TSO) has a successful track record of customizing our services to deliver sector-specific technical expertise to life sciences and advanced technology customers in the United States .

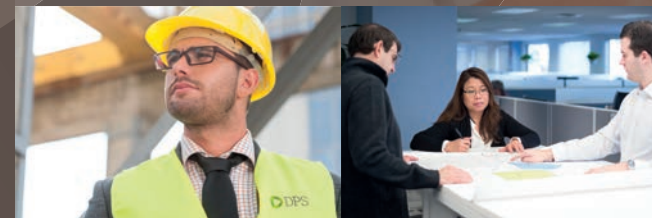

We have one goal: to deliver more than you expect the first time, every time.

Benefits of working with DPS Group TSO

Our clients trust TSO multi-office team to deliver their broad industry requirements.

Working as partners with TSO, you will experience the following:

- Client first mindset and our commitment to our relationship.
- An agile, critical thinking account management and resource team that is proactive and results-driven.
- Proven record of identifying and retaining top talent.
- Robust employee engagement through staff development, performance reviews, regular communication.
- Exceptional client service across the life sciences and advanced technology sectors.

Our people

Why does TSO place such an emphasis on being partners?

Simple. 85% of our business is repeat business which drives our overall success..

We build integrated solutions tailored to your specific needs, which includes providing individual resources and delivering flexible solutions through diverse scopes of work. Our exceptional talent helps you meet capital projects and sustaining operational needs.

“The achievements we have accomplished would not have been possible without the dedication and personal contribution of all our staff. I'm delighted to announce that our clients also concur with same, and we have received very positive feedback from a significant number of our clients regarding individual performances which is a testament to the quality and credibility of the strong talent within our group.”

Caroline Carmody - VP Operations MA office

People who deliver more

We work in close collaboration with our clients. Our passion to exceed expectations helps us deliver more by adapting quickly to our clients' continuously changing needs.

Great partnerships are evolutionary, always striving to deliver more together.

Our process

Relied on for our flexibility, original thinking, sound judgement and high level of expertise. Our unique differentiators include:

Excellent staff retention and support through communication

Qualified resource team of engineers and scientists

Global coverage

A resource team with client and A/E experience

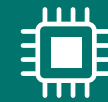

A large network of qualified resources

Our sector expertise

"DPS Tecnical Services were instrumental in getting all project deliverables completed on schedule, they worked with all project personnel and ensured everything was in order working late nights and doing some amazing things along the way. I am so grateful for their courage, attention to detail and high standards for compliance. Awesome job DPS!"

We provide solutions to fit your business

We build bespoke, integrated solutions tailored to your business needs. We partner with your organization, large or small, to attract, develop and deliver the very best talent.

To us, working in partnership with you, is where everything starts, and ends.

Dedicated Account Management

One of TSO's value-add unique differentiators is a commitment to provide dedicated Account Management. This includes regular communications with Client and DPS personnel from either site-based or home office Account Managers, site visits to increase visibility and strengthen relationships, and assistance in managing onsite personnel performance.

Contingent Search

We deliver exceptional, flexible contingent workforce solutions from our internal operations and across our extended network of industry experts.

Client Representative

Knowledgeable and experienced professionals to represent your brand and act on your behalf to help meet client specific needs.

Contingent to Direct Hire

The contingent to direct hire option allows the client to transition the DPS employee over to direct hire on a pre-agreed basis.

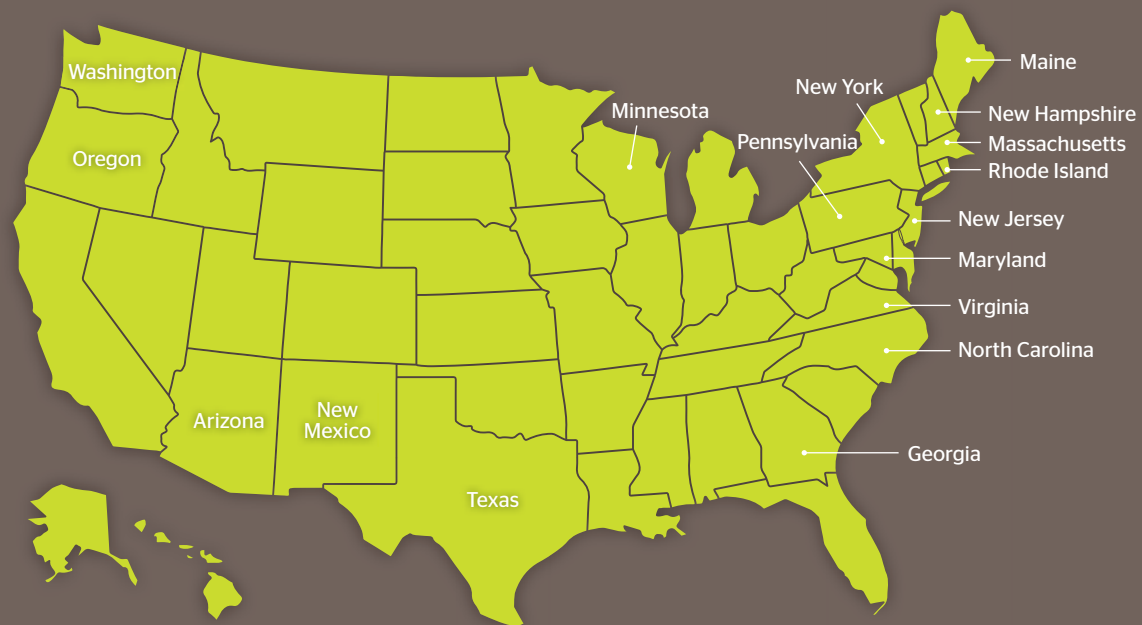

Direct Hire Services

Using innovative, tailored search methods and off-grid insights, we can source and secure the best available talent in order to fill our clients' strategic direct hiring needs.

TSO reach

We are strategically located in the life sciences and advanced technology regions to support your technical resources requirements for capital projects and sustaining operations.

Our team is ready to support you on your next project.

“Our expert resources always deliver lean, bespoke solutions to our client needs. Over the past six years, we have achieved phenomenal growth and an overall successful TSO Operation. Much of our business is repeat business with our clients.”
